INTRODUCTION

2-1-1’S HIV/AIDS Prevention and Care Guide is intended to provide information on local, state, and federal programs that work to meet the prevention goals and the service needs of Connecticut residents. We hope that the information in our Guide provides information that will help you understand the HIV/AIDS prevention and care options in Connecticut.

2-1-1 is Connecticut's free, confidential information, referral, and crisis intervention service. We are available by phone 24/7 from anywhere in Connecticut. Just dial 2-1-1 and a trained specialist will answer your call.

Please visit our website at www.211ct.org to search our on-line databases:

- Special Directories: http://uwc.211ct.org/professionals/
- 2-1-1 Child Development Infoline: http://cdi.211ct.org/
- Child Care Database: http://www.211childcare.org

2-1-1 is a program of the United Way of Connecticut and the State of Connecticut.

OVERVIEW

The Connecticut Department of Public Health partners with the Connecticut HIV Planning Consortium (CHPC), https://cthivplanning.org/ CHPC’s mission is: “To create a coordinated statewide care and prevention system in which the rate of new HIV infections is reduced, and those who are living with and affected by HIV/AIDS are connected to appropriate care and support services. The CHPC receives planning and technical assistance from numerous DPH staff members affiliated with the TB, HIV, STD and Viral Hepatitis Section. Three units in particular deliver consistent and critical support for the CHPC: the HIV Prevention Unit; the Health Care and Support Services Unit, and the HIV/AIDS Surveillance Unit.

The HIV Care & Prevention at the Connecticut Department of Public Health has two HIV/AIDS dedicated units: the Prevention Unit oversees prevention contractors and initiatives, and the Health Care and Support Services Unit oversees care contractors and initiatives.

The AIDS and Chronic Diseases Section initiatives for HIV/AIDS prevention and care include funding community based HIV and STD testing sites, HIV prevention programs, the CARE partner notification program, and other prevention and treatment programs. This Section also provides referrals to programs, and information about HIV and AIDS.

CONNECTICUT HIV PLANNING CONSORTIUM (CHPC)

The Connecticut Department of Public Health (DPH) recognizes the Connecticut HIV Planning Consortium (CHPC) as its primary vehicle for statewide HIV prevention and care planning. The CHPC convenes diverse stakeholders - including people living with HIV (PLWH), service providers, health specialists, and a range of community members - with a shared goal of creating a coordinated statewide prevention and care system.

RYAN WHITE PART A PLANNING COUNCILS

New Haven/Fairfield Ryan White Planning Council: www.ryanwhitecare.org

The Ryan White HIV/AIDS Program is the largest Federal program focused exclusively on HIV/AIDS care. The program is for individuals living with HIV/AIDS who have no health insurance (public or private), have insufficient health care coverage, or lack financial resources to get the care they need for their HIV disease. As such, the Ryan White HIV/AIDS Program fills gaps in care not covered by other funding sources.

The legislation is called the Ryan White HIV/AIDS Treatment Extension Act of 2009 (Public Law 111-87, October 30, 2009). The legislation was first enacted in 1990 as the Ryan White CARE (Comprehensive AIDS Resources Emergency) Act. It has been amended and reauthorized four times: in 1996, 2000, 2006, and 2009. The Ryan White legislation has been adjusted with each reauthorization to accommodate new and emerging needs, such as an increased emphasis on funding of core medical services and changes in funding formulas.

Funding is provided to cities, metropolitan areas, states and directly to providers and organizations (e.g. community health centers). The Ryan White Program is divided into five major Parts (formerly called Titles): Part A, B, C, D, and F.

Part A: Funds Eligible Metropolitan Areas (EMAs) and Transitional Grant Areas (TGAs), which consist of cities and metropolitan areas (e.g. counties) most heavily impacted by the HIV epidemic. In Connecticut these metropolitan areas are located in New Haven/Fairfield Counties (EMA) and Greater Hartford TGA (consisting of Hartford, Middlesex and Tolland Counties).

Part B: Funds all 50 states and applicable jurisdictions and territories, and provides access to medications for eligible individuals living with HIV/AIDS through the AIDS Drug Assistance Program (ADAP), as well as funding for core medical and support services. ADAPs provide FDA-approved HIV-related prescription drugs to low-income PLWHA who have limited or no prescription drug coverage.

Part C: Funds provided directly to ambulatory medical clinics (e.g. community health centers). Supports early intervention services (EIS) to reach people newly diagnosed with HIV and link them with care.

Part D: Funds public and private organizations directly to provide family-centered and community-based services to children, youth and women living with HIV and their families. Provides outreach, primary and specialty medical care and psychosocial support, including links to clinical research.

Part F: Funds two programs – Special Programs of National Significance (SPSN), AIDS Education and Training Centers (AETC).
GOVERNMENT AND COMMUNITY BASED PROGRAMS AND SERVICES

AIDS SERVICE ORGANIZATIONS

Community based agencies that offer information about HIV prevention, HIV and AIDS treatment; support groups; case management; and a variety of other support services.

CADAP – CONN. AIDS DRUG ASSISTANCE PROGRAM (DSS)

| CADAP FORMULARY: | https://portal.ct.gov/DSS/Search-Results?SearchKeyword=formulary |

State program designed to help people who are living with HIV/AIDS, including immigrants without green cards, pay for federally approved HIV antiretroviral drugs and drugs which prevent opportunistic infections associated with HIV/AIDS. List of approved drugs is extensive and new drugs are added as they are approved.

ELIGIBILITY: Must be diagnosed by a licensed physician as having at least one of the following medical conditions: Acquired Immunodeficiency Syndrome (AIDS), Human Immunodeficiency Virus (HIV) positive symptomatic, or HIV infection; net countable income must be at or below 400% Federal Poverty Level (FPL), must be a Connecticut resident, and no asset limit. Once approved for CADAP, individual must apply for Medicaid or SAGA Medical.

CARE PROGRAM - COMPANION AWARENESS & RISK EDUCATION

DPH funded CARE Program (Companion Awareness and Risk Education) counselors help people with HIV/AIDS notify present and previous sex or needle-sharing partners that they may have been exposed to HIV. Counselors will tell partners and keep the source confidential or will provide the support needed for the HIV+ person to inform the partner(s) him/herself. Counselors also can give immediate, on-the-spot testing, if wanted, to persons who are being informed of possible exposure to HIV.

ELIGIBILITY: No restriction

COMMUNITY CENTERS FOR PEOPLE WITH HIV

Community centers, also known as Wellness Centers, usually funded by Ryan White Part A, offer psychosocial support, group counseling, and social activities for people living with HIV/AIDS.

| LINK TO DPH LIST OF CHCs: | http://www.ct.gov/dph/cwp/view.asp?a=3138&q=406054 |

Community health centers provide health care regardless of insurance and regardless of immigration status. Services are provided on a sliding fee basis and include primary care, substance abuse and mental health care, prenatal care, and social work services. Some community health centers provide prenatal care, some have on-site pharmacies, and some have on-site dental care.

COMPREHENSIVE RISK COUNSELING SERVICES - CRCS

DPH funded program for people who are at high risk of HIV infection provides individualized counseling on risk prevention and coordination of services needed to meet a client's basic needs in order that the client can better focus on developing behaviors to protect his/her health. CRCS is intended for individuals with multiple complex problems and risk reduction needs who are having or are likely to have difficulty initiating or sustaining practices that reduce or prevent HIV acquisition, transmission, or re-infection.

AIDS CONNECTICUT

Statewide AIDS membership organization provides system advocacy to improve the service delivery system and access to services for people with HIV/AIDS, manages housing and client assistance funds, and provides training and technical assistance to AIDS service providers. AIDS Connecticut website maintains an http://www.aids-ct.org/.

DRUG TREATMENT ADVOCATE
PROGRAM

Case managers located at community based organizations will do drug/alcohol addiction assessments and then find treatment beds for substance abusers who want to get into drug or alcohol treatment. Case managers can also arrange for subsequent levels of care. The case managers will transport the person to the treatment site.

NEEDLE EXCHANGE PROGRAMS

Needle exchange programs operate in five Connecticut cities (Bridgeport, Danbury, Hartford, New Haven and Stamford) for the purpose of preventing the spread of HIV/AIDS via intravenous drug use. Mobile vans travel to various community sites, and in addition to exchanging used needles for new ones, offer confidential HIV testing and educational materials on disease prevention.

RYAN WHITE CARE ACT PROGRAMS

Ryan White Parts A, B, C, D and F fund outpatient/ambulatory medical care, the ADAP program, early intervention services, medical case management, dental care, substance abuse and mental health treatment services (outpatient), medical nutritional therapy, support services (e.g. transportation, food bank/home delivered meals, emergency financial assistance, housing services, etc.), care and support services for women and children, education and training services, outreach and education for minorities and special projects which support innovative models of HIV care delivery for hard-to-reach populations.

On January 1, 2014, the Affordable Care Act was implemented and guarantees that all Americans – regardless of their health status or pre-existing condition – will have access to coverage. Individuals can now apply for affordable health insurance coverage choices in health insurance marketplaces when open enrollment begins each November 1st and ends on December 15th. Visit the Health Insurance Marketplace to learn more from the federal government website.

In Connecticut, Access Health CT has a health insurance exchange/marketplace, where individuals can go directly to inquire about health insurance, or visit an enrollment center during this enrollment period. Please visit Access Health CT (www.accesshealthct.com) for further information on what constitutes a qualifying event that you may qualify for a Special Enrollment period throughout the year if needed, or call, (855)805-4325.

Or visit our topical paper, "Access Health CT: Connecticut Health Insurance Exchange", under eLibrary papers, category Health Insurance, for general information on Connecticut’s Health Exchange and links to other fact sheets and tips to help individuals looking for health plan options.
