Program: Job Finding Assistance: Veterans

Categorized as: Job Training Formats; Job Finding Assistance; Career Counseling
Description: Disabled Veterans Outreach Program Specialists (DVOP) assist veterans who have one or more of the six defined significant barriers to employment with employment and training needs. Veterans are offered vocational guidance, case management, counseling services, and workshops on topics such as resumes and cover letters, job search, and using the Internet. Other American Job Center staff are available to provide assistance to those veterans who do not have any major significant barriers to employment. Local Veterans' Employment Representatives (LVER) conduct outreach to employers and engage in advocacy efforts with hiring executives to increase employment opportunities for veterans, encourage the hiring of disabled veterans, and generally assist veterans to gain and retain employment. LVER staff conduct seminars for employers and job search workshops for veterans seeking employment, and facilitate priority of service in regard to employment, training, and placement services furnished to veterans by all staff of the employment service delivery system. Veterans who are separated from the military are also eligible for the Connecticut Transition Assistance Program (TAP).

Agency: TRI-SERVICE WARRIOR CARE CLINIC

Program: Specialized Treatment: ABI/Chronic Pain/PTSD/Sleep Disorders

Categorized as: Specialized Treatment; Specialized Treatment; Specialized Treatment; Specialized Treatment; Health Screening/Diagnostic Services; Independent Living Skills Instruction

Description: Medical clinic provides multidisciplinary assessment and treatment for active duty and recently retired military service members with mild to moderate traumatic brain injury, post-traumatic stress disorder, sleep disorders, or chronic pain.

OTHER INFORMATION:

The Clinic offers a 4-week Intensive Outpatient Program which focuses on the re-learning daily life skills. The treatment program addresses both the cognitive and psychological health concerns of those returning from deployment. While most service members will have sustained their injuries on the battlefield, the context of injury is not exclusionary. An occasional 3-week program is also offered, usually during the holiday season.

Prior to being accepted into the program, each service member will have completed a thorough multidisciplinary evaluation by a team of providers which may include experts in neurology, psychiatry, neuropsychology, speech pathology, and occupational therapy. An individualized curriculum will be developed based on the unique needs of each service member.

For those service members presenting with impairments in the areas of memory, attention, and problem solving, the program offers both traditional and computer-based cognitive rehabilitation therapy on a daily basis throughout the three-week program by a licensed speech pathologist.

The program also provides a variety of group therapies, focusing on issues such as stress management, communication and intimacy, anger management, nutrition, substance abuse, and pain management, in a safe, supportive, military-focused atmosphere.

Follow-up visits are provided for service members to measure progress and to address ongoing needs. There is typically a one month follow-up and continuing follow-ups based on the need and location. Spouses and caregivers are encouraged to be involved in this process.

The practical elements of the program involve three phases: Phase I: Delegates participate in a self-study curriculum, facilitated by an online discussion and assessment module, which will be moderated by entrepreneurship faculty and graduate students from one of the partner EBV universities. During this phase delegates will work on the development of their own business concepts. Phase II: During the nine-day residency at one of the six EBV universities, delegates are exposed to the nuts and bolts of business ownership through experiential workshops and lessons from entrepreneurship faculty from other programs around the country. Phase III: Delegates are provided with 12 months of ongoing support and mentorship from faculty experts at the EBV universities.

Program: Veterans Choice Program

Description: Beginning November 5, 2014, the new Choice Program will offer veterans the option to receive non-VA health care rather than waiting for a VA appointment or traveling to a VA facility. Veterans are eligible if any of the following situations apply: 1) You have been told by your local VA medical facility that you will need to wait more than 30 days from your preferred date or the date medically determined by your physician, 2) Your current residence is more than 40 miles from the closest VA health care facility, 3) You need to travel by plane or boat to the VA medical facility closest to your home, 4) You face a geographic challenge, such as extensive distances around water or other geologic formations, such as mountains, which present a significant travel hardship. - VA will mail the Choice Card to Veterans enrolled in the VA health care as of August 1, 2014, and to recently discharged combat Veterans who enroll within the five year window of eligibility. Not all Veterans who receive the Card will be able to participate in the Choice Program - they must meet the criteria established under the new law. VA will implement this program in stages.
