Through employer-led industry partnerships, employers are co-convened by industry intermediaries and Capital Workforce Partners to assist lower-wage workers with identifying their path toward quality employment and assist employers with accessing a qualified workforce. Collaborative works through partnerships in three sectors. Manufacturing, Healthcare and Transportation, Logistics, and
Distribution. The Health Care partnership supports job seeker completion of training and bridge the gap between skills training programs and job placement efforts. The Manufacturing partnership provides job seekers with industry recognized credentials, hands-on machine experience, and connections to internships that lead to employment. The Transportation partnership strengthens the transportation workforce pipeline, support on-the-job training, and improve retention rates among new hires.
