2-1-1 Connecticut will be offering a series of seven free webinars to anyone who is interested in participating, beginning July 26th and ending on September 5th. A different webinar topic will be offered each week and each session will be about 30 minutes in length. All sessions will be recorded and available on our website for future viewing. We value your interest in the work we do and appreciate all of the partners who help us spread the word about the 2-1-1 services and online tools.
