Program: Homes for the Brave

Categorized as: Transitional Housing/Shelter; Transitional Housing/Shelter
Description: NOTE: This agency participates in a Unified Intake process and does not accept individual requests for shelter. Callers in need of shelter must call 2-1-1 for a referral.

Transitional living facility serves veterans who have been referred from Fairfield County homeless shelters and veterans involved in treatment at the VA Connecticut Healthcare System who have chronic health, mental health or substance abuse issues. The facility serves a limited number of homeless men who are non-veterans and in need of transitional housing and who demonstrate motivation for rehabilitation. The transitional program is a psycho-educational and psycho-social rehabilitation program that assists people in learning the skills needed to transition back into the community. Support services include substance abuse groups, life-skills coaching, mental health counseling, vocational training, and medical and clinical services. Case managers work with VA case managers to assist veterans in skills development and money management to enable residents to save for apartments of their own. Shelter Plus vouchers may also be available to graduates who still need supportive case management services. Length of stay is up to 24 months.

Program: Specialized Treatment: ABI/Chronic Pain/PTSD/Sleep Disorders

Categorized as: Specialized Treatment and Prevention; Specialized Treatment and Prevention; Specialized Treatment and Prevention; Specialized Treatment and Prevention; Health Screening/Diagnostic Services; Independent Living Skills Instruction

Description: Medical clinic provides multidisciplinary assessment and treatment for active duty and recently retired military service members with mild to moderate traumatic brain injury, post-traumatic stress disorder, sleep disorders, or chronic pain. - Additional information: The Clinic offers a 4-week Intensive Outpatient Program which focuses on the re-learning daily life skills. The treatment program addresses both the cognitive and psychological health concerns of those returning from deployment. While most service members will have sustained their injuries on the battlefield, the context of injury is not exclusionary. An occasional 3-week program is also offered, usually during the holiday season.

Prior to being accepted into the program, each service member will have completed a thorough multidisciplinary evaluation by a team of providers which may include experts in neurology, psychiatry, neuropsychology, speech pathology, and occupational therapy. An individualized curriculum will be developed based on the unique needs of each service member.

For those service members presenting with impairments in the areas of memory, attention, and problem solving, the program offers both traditional and computer-based cognitive rehabilitation therapy on a daily basis throughout the three-week program by a licensed speech pathologist. The program also provides a variety of group therapies, focusing on issues such as stress management, communication and intimacy, anger

management, nutrition, substance abuse, and pain management, in a safe, supportive, military-focused atmosphere. Follow-up visits are provided for service members to measure progress and to address ongoing needs. There is typically a one month follow-up and continuing follow-ups based on the need and location. Spouses and caregivers are encouraged to be involved in this process.

Description: The Entrepreneurship Bootcamp for Veterans with Disabilities (EBV) offers training in entrepreneurship and small business management to veterans with disabilities. The EBV is designed to open the door to business ownership for veterans by 1) developing their skills in the steps and activities associated with launching and growing a small business, and 2) helping them leverage programs and services for veterans and people with disabilities to achieve their entrepreneurial goals. Additional information: The EBV is designed around two central elements: a) focused, practical training in the tools and skills of new venture creation and growth, reflecting issues unique to disability and public benefits programs; and b) the establishment of a support structure for graduates of the program. The practical elements of the program involve three phases: Phase I: Delegates participate in a self-study curriculum, facilitated by an online discussion and assessment module, which will be moderated by entrepreneurship faculty and graduate students from one of the partner EBV universities. During this phase delegates will work on the development of their own business concepts. Phase II: During the nine-day residency at one of the six EBV universities, delegates are exposed to the nuts and bolts of business ownership through experiential workshops and lessons from entrepreneurship faculty from other programs around the country. Phase III: Delegates are provided with 12 months of ongoing support and mentorship from faculty experts at the EBV universities.

Program: Veterans Choice Program

Categorized as: Health Care Referrals
Description: Beginning November 5, 2014, the new Choice Program will offer veterans the option to receive non-VA health care rather than waiting for a VA appointment or traveling to a VA facility. Veterans are eligible if any of the following situations apply: 1) You have been told by your local VA medical facility that you will need to wait more than 30 days from your preferred date or the date medically determined by your physician, 2) Your current residence is more than 40 miles from the closest VA health care facility, 3) You need to travel by plane or boat to the VA medical facility closest to your home, 4) You face a geographic challenge, such as extensive distances around water or other geologic formations, such as mountains, which present a significant travel hardship. - VA will mail the Choice Card to Veterans enrolled in the VA health care as of August 1, 2014, and to recently discharged combat Veterans who enroll within the five year window of eligibility. Not all Veterans who receive the Card will be able to participate in the Choice Program - they must meet the criteria established under the new law. VA will implement this program in stages.

Description: The Connecticut VJO program is a federal jail diversion program providing outreach services to eligible Veterans who are involved with the criminal justice system. The goal of the program is to provide consultation to help veterans access services by providing the court with a pre-trial treatment plan that could be used as an alternative to incarceration.
