Transitional living facility serves veterans who have been referred from Fairfield County homeless shelters and veterans involved in treatment at the VA Connecticut Healthcare System who have chronic health, mental health or substance abuse issues. The facility serves a limited number of homeless men who are non-veterans and in need of transitional housing and who demonstrate motivation for rehabilitation. Description: Medical clinic provides multidisciplinary assessment and treatment for
active duty and recently retired military service members with mild to moderate traumatic brain injury, post-traumatic stress disorder, sleep disorders, or chronic pain. Additional information: The Clinic offers a 4-week Intensive Outpatient Program which focuses on the re-learning of daily life skills. The treatment program addresses both the cognitive and psychological health concerns of those returning from deployment. While most service members will have sustained their injuries on the battlefield, the context of injury is not exclusionary. An occasional 3-week program is also offered, usually during the holiday season.

Prior to being accepted into the program, each service member will have completed a thorough multidisciplinary evaluation by a team of providers which may include experts in neurology, psychiatry, neuropsychology, speech pathology, and occupational therapy. An individualized curriculum will be developed based on the unique needs of each service member.

For those service members presenting with impairments in the areas of memory, attention, and problem solving, the program offers both traditional and computer-based cognitive rehabilitation therapy on a daily basis throughout the three-week program by a licensed speech pathologist.

The program also provides a variety of group therapies, focusing on issues such as stress management, communication and intimacy, anger management, nutrition, substance abuse, and pain management, in a safe, supportive, military-focused atmosphere.

Follow-up visits are provided for service members to measure progress and to address ongoing needs. There is typically a one month follow-up and continuing follow-ups based on the need and location. Spouses and caregivers are encouraged to be involved in this process.

Program: Veterans Choice Program

Categorized as: Health Care Referrals
Description: Beginning November 5, 2014, the new Choice Program will offer veterans the option to receive non-VA health care rather than waiting for a VA appointment or traveling to a VA facility. Veterans are eligible if any of the following situations apply: 1) You have been told by your local VA medical facility that you will need to wait more than 30 days from your
preferred date or the date medically determined by your physician, 2) Your current residence is more than 40 miles from the closest VA health care facility, 3) You need to travel by plane or boat to the VA medical facility closest to your home, 4) You face a geographic challenge, such as extensive distances around water or other geologic formations, such as mountains, which present a significant travel hardship. - VA will mail the Choice Card to Veterans enrolled in the VA health care as of August 1, 2014, and to recently discharged combat Veterans who enroll within the five year window of eligibility. Not all Veterans who receive the Card will be able to participate in the Choice Program - they must meet the criteria established under the new law. VA will implement this program in stages.
